

Data Contribution to the Provincial Solution

The four regional LHIN-Home and Community Care sites (Champlain, North East, North West and South East) have been contributing their patient (client) health information to the provincial clinical data repository (CDR) since September 2016 - a milestone for ConnectingOntario Northern and Eastern Region. Clinicians from across Ontario are able to access information, such as service visit reports and care plans using the ConnectingOntario ClinicalViewer.

In addition to the LHIN-Home and Community Care sites, the following hospitals are contributing patient data to the provincial CDR:
